EXECUTIVE MEETING

Following a short meeting the ~~ex~~ first
executive committee meeting was fixed for
Tuesday 29 April at the Centre or
G Hodges residence if a room was not
available

A SOCIETY FOR RANGES IS FORMED

The Warby Range Protection Society was formed at a well-attended meeting last night.

The Society has already accepted a draft constitution, and this will be formally adopted at a general meeting to be called soon.

Over 60 people attended the meeting, which was held at The Centre.

Mr C. F. English was elected as president of the Society, with Mr Alan Emslie as vice-president and Mr Garth Hodge as secretary.

Mr George Ikinger was elected treasurer, and Mr Adrian Twitt public Relations officer.

Other members of the Society executive are Cr. Paul Larkins, Mr Jim Humphrey, and Mrs Trudi Kentmann.

Guest speaker at the meeting was Fisheries and Wildlife officer at Wangarratta, Mr Pat Sheridan.

He outlined the wildlife and fauna that exists in the Warby Ranges, and stressed the need for their protection.

The draft constitution outlines the six aims of the newly formed society.

These are—

- To make every effort to ensure that the Range is used with wisdom and foresight, and that the competing demands upon the Range are resolved in the best long-term interests of the district.

- To foster conservation of the distinctive vegetation

and fauna and the important natural features of the Range.

- To oppose any action or development within the area contiguous to the Ranges which may be detrimental to the aesthetic impact of the landscape.

- To promote the knowledge, understanding and awareness of the value of the natural environment of the Range.

- To co-operate with organisations concerned with conservation.

- To generally take such action as is considered necessary or appropriate in the interests of promoting conservation.

Membership of the Society is open to any person at a cost of \$1.

Mr Adrian Twitt this morning stressed that the Society was in no way an authority.

"We are just a group of people interested in protecting the Warby Range. We hope we will have enough support to exert some influence towards this end", he said.

He said that the Society was not aiming at completely blanketing development of any type in the Range.

"We would be looking at each proposal on its merits", he said.

Society to protect the Warby Ranges

A Warby Range Preservation Society will be formed at a public meeting in Wangaratta next week.

The meeting has been called to discuss the protectional preservation of the Warby Ranges.

Organisers of the meet-

ing to be held at The Centre at 8 pm. Tuesday, have indicated that this move is in response to continuing threats to the range and its surrounding area by rural subdivision, clearing mining activities and other developments.

A meeting convened by the Wangaratta Sub-Regional Planning Committee in September 1973, to discuss the future of the Warby Ranges was attended by 120 people.

The people at the meeting indicated consid-

erable interest in the range.

The overall opinion expressed at that meeting showed a desire by the community to protect the area from development.

It was also suggested that a public committee known as the Warby Ecology and Environment Protection Society be formed to retain the Warby Ranges in their present state.

Organisers of next week's meeting feel that some follow up to this suggestion is overdue.

I.C.I. MINING APPLICATION.

The Secretary reported that his letter to the Australian Conservation Foundation had not as yet been acknowledged. Mr Engisth had advised that the local Mines Dept representative Mr Clark had volunteered his belief that the ~~proposed~~ application was probably only protective rather than indicating an immediate intention but that a protest nevertheless should be directed to the Mines Department.

MAPS.

The Secretary advised that he had written concerning the availability of the maps required.

REPORTS.

TREASURER reported \$29 in the Bank accounts and presented accounts for payment.

RESOLVED

1. P. Parkings 2. G. Hodge

Carried.

Agreed

That the committee should enlist the support of landholders opposed to the application that the local Tourist body should be encouraged to object. P. Parkings agreed to take this matter up further.

EXTENSION OF MEMBERSHIP.

The committee discussed the matter of membership and agreed that personal proselytizing would be the most effective and that a public meeting with a visiting guest speaker and a field day at the local flora reserve would be useful action.

PROGRAM.

The committee discussed ways in which the objects of the Society could be implemented. Among the matters discussed were the use of sub-committees to gather information to influence local government bodies, the education of local opinion, the formulation of definite policies. The chairman ~~was~~ expressed

himself in favor of 300 acres as the minimum subdivision on the ranges to facilitate possible "key back" moves. Generally there was agreement that little could be done about existing subdivisions but a "thus far no further" policy should be accepted particularly with residential development on the Range itself
